

FS Portal Plus

Folding sliding door hardware from the largest Siegenia-Aubi distributor in the UK.

The new FS-PORTAL folding sliding door hardware from SIEGENIA-AUBI provides enhanced aesthetics and smooth, easy operation of the folding door.

FS-PORTAL folding sliding door hardware is suitable for timber, pvc or aluminium profiles.

FS-PORTAL hardware can be fitted to conservatories, patios, roof gardens, balconies or even extensions, to maximise the opening, increase natural light and ventilation, provide easy access to the outdoors and offer a real sense of bringing the outdoors indoors.

Using one master leaf and a combination of slave leaves, from 2 up to 7 sashes, you can create an opening of up to 6.3 meters. Sashes can be inward or outward opening and all travel smoothly on 4-wheeled runners.

When fully closed the doors benefit from all-round multipoint locking and sealing, providing security and protecting from the elements.
