# PROLINEA SMART SPINDLE

## ESPAG HANDLE

1 Espag handle. 5 Spindles.

Suits the most common PVCu profile systems, past & present, in the UK.

**Smart.**

# PROLINEA SMART SPINDLE ESPAG HANDLE

## The new Smart Spindle espag handle from Mila is 5 handles in 1.

With convenience in mind the espag handle is supplied with 5 interchangeable spindle lengths, from 15mm - 55mm, as standard.

Simply select the spindle required and click-fit it into place!

Spindles locate into the back of the handle rose with ease. A clever 'click-fit' rosette feature ensures that only the correct end of the spindle can be inserted into the rose for a secure fit.

The rosette also allows positive location with an audible 'click' when the lever is rotated through 90°.

An edge-to-edge screw cover cap enhances aesthetics on the rose for a contemporary look.

Finger-grips on the lever provide optimum comfort when the handle is in use and an ergonomic button assembly is easy to operate.

Supplied complete with cut-to-length screws as standard.

The Smart Spindle espag handle is perfect for maximum choice of spindle lengths but with minimum stock holding.

The handle is available in 6 suited colour options as well as locking, push button and emergency exit versions.

Suitable for PVCu, aluminium and timber applications.

## 6 SUITED COLOURS

Polished Gold

Polished Chrome

Brushed Satin Chrome

Smokey Chrome

White

Black

## 5 SPINDLE LENGTHS SUPPLIED AS STANDARD

9mm spindle

15mm spindle
