35mm backset slave door lock with shootbolts top and bottom.

Mila Pin Panic Lock

The MILA "Pin Panic" system provides enhanced security through a multipoint lock with twin 20mm throw pins with a reversible latch and deadbolt. Safety and ease of exit is satisfied through a smooth locking mechanism and panic bar.

The MILA Pin Panic Bar kit has been tested and certified to EN 1125, European standard for Panic Exit Devices. While the emphasis in the standard is on safe exit rather than security it is possible to effectively combine the two.

The system is available in kits for both single and double doors and is suitable for use on PVCU, timber and aluminium.

- High security panic door hardware for use on PVCU, timber and aluminium doors
- Kits available for both single and double doors
- Multipoint lock featuring 2 x pins for security
- Internal operation via panic bar
- Panic bar finished in exit green
- Non-handed for right or left hand doors
- External access kit available
- Multipoint lock and Panic Bar tested and certified to EN 1125
- EN 1125 Classification: 3 7 6 0 1 3 2 2 A
