

## Technical Data

Type	2 Pin
Operation	Cylinder/key
Pz (mm)	92
Backset (mm)	35
Faceplate (mm)	16

### Material Specification

Lock Case	Steel acc. En 10149/zinc plated
Face Plate	Steel acc. En 10149
Latch Bolt	Zinc diecasting acc. 1743-2/nickel plated En 12540
Deadbolt	Zinc diecasting acc. 1743-2/nickel plated En 12540
Spindle Square	Brass acc. DIN 1709
Handle-Spring Housing	Zinc diecasting acc.. 1743-2/yellow bichromated En 12330
Handle-Spring	Steel acc. DIN 2076-D
Drive Gear	Steel acc. En 10149
Slider	Steel acc. En 10149/zinc plated
Tumbler	Zinc diecasting acc. 1743-2/nickel plated En 12540
Tumbler Spring	Steel acc. DIN 2076-D
Box Quantity	5

## Push Button Lock Kit

The Pushbutton 500 series push button lock is a heavy duty mechanically coded lock with full size lever handles for use in high traffic situations. The lever handles allow it to be used as the primary lock on most doors, whilst the functions provide for control of the door in various ways.

- Full size lever handles
- 2047 codes to choose from
- Available in stainless steel finish

For use with mortice or multipoint locks a minimum backset of 40mm is required. MILA recommend that the push button lock is used conjunction with the **AS2300 Multipoint Lock**. A high security lock with 2 round bolts, reversible latch and an anti-saw deadbolt. This key/cylinder operated multipoint locking system for residential doors featuring a day latch facility but with the benefit of multi-point locking and sealing.

- Key/cylinder operated with day latch facility
- Deadbolt has double throw (20mm)
- Round bolts provide compression and an element of security

## Part Numbers

Description	Part No.
Digital Lock	044711
Digital Lock + AS2300 (Inc. Cylinder & Escutcheon)	PBLK1
60 - 70mm door profiles will require longer handle spindles	044719
